COMPANY OVERVIEW

GND IT Business Solutions is the DBA of Cg Futures & Enterprises, LLC, a veteran-led technology development firm specializing in advanced data analytics, proprietary data systems, algorithms, automation, and custom software. We develop purpose-built solutions around defined business and mission outcomes for commercial organizations, government buyers, and prime contractors.

CORE COMPETENCIES

01 Advanced Data Analytics

Data preparation, modeling, diagnostics, signal analysis, visualization, KPIs, and decision-ready reporting.

02 Proprietary Data Systems

Data architecture, pipelines, structured repositories, APIs, analytical platforms, dashboards, and integrations.

03 Algorithms & Decision Engines

Scoring models, rules engines, signal logic, prioritization, testing, thresholds, and transparent controls.

04 Custom Software & Automation

Web applications, internal tools, workflow automation, integrations, monitoring, documentation, and handoff.

REPRESENTATIVE COMMERCIAL EXPERIENCE

Market Analytics & Decision Engine

GENIUS NEVER DIES

- Developed proprietary Pine Script algorithms and multi-condition logic for market-data interpretation, signal generation, decision levels, invalidation, and state changes.
- Engineered an integrated analytical platform spanning visualization, research workflow, automation, evidence records, reporting, publishing, and broadcast tooling.
- Established a validation loop using timestamped outputs, explicit invalidation, result classification, evidence links, retrospectives, and iterative refinement.

DIFFERENTIATORS

- Data analytics is the core of an integrated development capability.
- Builds around the defined objective rather than forcing the requirement into a generic tool.
- Connects data architecture, proprietary algorithms, automation, workflow, and custom software.
- Makes analytical logic transparent, testable, governable, and ready for continued enhancement.
- Combines focused small-business delivery with an enterprise IT and information-security foundation.
